   (c) support the viability of identified strategic centres.

Where this direction applies
(2) This direction applies to all relevant planning authorities.

When this direction applies
(3) This direction applies when a relevant planning authority prepares a planning proposal that will affect land within an existing or proposed business or industrial zone (including the alteration of any existing business or industrial zone boundary).

What a relevant planning authority must do if this direction applies
(4) A planning proposal must:
   (a) give effect to the objectives of this direction,
   (b) retain the areas and locations of existing business and industrial zones,
   (c) not reduce the total potential floor space area for employment uses and related public services in business zones,
   (d) not reduce the total potential floor space area for industrial uses in industrial zones, and
   (e) ensure that proposed new employment areas are in accordance with a strategy that is approved by the Director-General of the Department of Planning.

Consistency
(5) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning authority can satisfy the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General) that the provisions of the planning proposal that are inconsistent are:
   (a) justified by a strategy which:
      (i) gives consideration to the objective of this direction, and
      (ii) identifies the land which is the subject of the planning proposal (if the planning proposal relates to a particular site or sites), and
      (iii) is approved by the Director-General of the Department of Planning, or
   (b) justified by a study (prepared in support of the planning proposal) which gives consideration to the objective of this direction, or
   (c) in accordance with the relevant Regional Strategy or Sub-Regional Strategy prepared by the Department of Planning which gives consideration to the objective of this direction, or
   (d) of minor significance.

Note: In this direction, “identified strategic centre” means a centre that has been identified as a strategic centre in a regional strategy, sub-regional strategy, or another strategy approved by the Director General.

What a relevant planning authority must do if this direction applies
(4) A planning proposal must:

1.3 Mining, Petroleum Production and Extractive Industries

Objective
(1) The objective of this direction is to ensure that the future extraction of State or regionally significant reserves of coal, other minerals, petroleum and extractive materials are not compromised by inappropriate development.

Where this direction applies
(2) This direction applies to all relevant planning authorities.

When this direction applies
(3) This direction applies when a relevant planning authority prepares a planning proposal that would have the effect of:
   (a) prohibiting the mining of coal or other minerals, production of petroleum, or winning or obtaining of extractive materials, or
   (b) restricting the potential development of resources of coal, other minerals, petroleum or extractive materials which are of State or regional significance by permitting a land use that is likely to be incompatible with such development.

What a relevant planning authority must do if this direction applies
(4) In the preparation of a planning proposal affected by this direction, the relevant planning authority must:
   (a) consult the Director-General of the Department of Primary Industries (DPI) to identify any:
      (i) resources of coal, other minerals, petroleum or extractive material that are of either State or regional significance, and
      (ii) existing mines, petroleum production operations or extractive industries occurring in the area subject to the planning proposal, and
   (b) seek advice from the Director-General of DPI on the development potential of resources identified under (4)(a)(i), and
   (c) identify and take into consideration issues likely to lead to land use conflict between other land uses and:
      (i) development of resources identified under (4)(a)(i), or
      (ii) existing development identified under (4)(a)(ii).
(5) Where a planning proposal prohibits or restricts development of resources identified under (4)(a)(i), or proposes land uses that may create land use conflicts identified under (4)(c), the relevant planning authority must:
   (a) provide the Director-General of DPI with a copy of the planning proposal and notification of the relevant provisions,
   (b) allow the Director-General of DPI a period of 40 days from the date of notification to provide in writing any objections to the terms of the planning proposal, and
   (c) include a copy of any objection and supporting information received from the Director-General of DPI with the statement to the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General) before undertaking community consultation in satisfaction of section 57 of the Act.

Consistency
(6) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning authority can satisfy the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General), that the provisions of the planning proposal that are inconsistent are of minor significance.

Direction 1.3 – issued 1 July 2009
1.4 Oyster Aquaculture

Objectives
(1) The objectives of this direction are:
   (a) to ensure that Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area are adequately considered when preparing a planning proposal,
   (b) to protect Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area from land uses that may result in adverse impacts on water quality and consequently, on the health of oysters and oyster consumers.

Where this direction applies
(2) This direction applies to Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area as identified in the NSW Oyster Industry Sustainable Aquaculture Strategy (2006) (“the Strategy”).

When this direction applies
(3) This direction applies when a relevant planning authority prepares any planning proposal that proposes a change in land use which could result in:
   (a) adverse impacts on a Priority Oyster Aquaculture Area or a “current oyster aquaculture lease in the national parks estate”; or
   (b) incompatible use of land between oyster aquaculture in a Priority Oyster Aquaculture Area or a “current oyster aquaculture lease in the national parks estate” and other land uses.

What a relevant planning authority must do if this direction applies
(4) In the preparation of a planning proposal affected by this direction, the relevant planning authority must:
   (a) identify any Priority Oyster Aquaculture Areas and oyster aquaculture leases outside such an area, as shown the maps to the Strategy, to which the planning proposal would apply,
   (b) identify any proposed land uses which could result in any adverse impact on a Priority Oyster Aquaculture Area or oyster aquaculture leases outside such an area,
   (c) identify and take into consideration any issues likely to lead to an incompatible use of land between oyster aquaculture and other land uses and identify and evaluate measures to avoid or minimise such land use incompatibility,
   (d) consult with the Director-General of the Department of Primary Industries (DPI) of the proposed changes in the preparation of the planning proposal, and
   (e) ensure the planning proposal is consistent with the Strategy.

(5) Where a planning proposal proposes land uses that may result in adverse impacts identified under (4)(b) and (c), relevant planning authority must:
   (d) provide the Director-General of DPI with a copy of the planning proposal and notification of the relevant provisions,
   (e) allow the Director-General of DPI a period of 40 days from the date of notification to provide in writing any objections to the terms of the planning proposal, and
   (f) include a copy of any objection and supporting information received from the Director-General of DPI with the statement to the Director-General of the Department of Planning before undertaking community consultation in satisfaction of section 57 of the Act.

Consistency
(6) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning authority can satisfy the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General) that the provisions of the planning proposal that are inconsistent are of minor significance.

Note: In this direction:
   (a) “Priority Oyster Aquaculture Areas” has the same meaning as in the NSW Oyster Industry Sustainable Aquaculture Strategy; and
   (b) an “incompatible use of land” includes access to oyster leases being limited by the change in land use or the risk of adverse impacts as a result of that change in land use on water quality and, consequently, on the health of oysters and on the health of consumers of those oysters.

Direction 1.4 – issued 1 July 2009

Note: State Environmental Planning Policy (Rural Lands) 2008 does not require a relevant planning authority to review or change its minimum lot size(s) in an existing LEP. A relevant planning authority can transfer the existing minimum lot size(s) into a new LEP. However, where a relevant planning authority seeks to vary an existing minimum lot size in an LEP, it must do so in accordance with the Rural Subdivision Principles listed in State Environmental Planning Policy (Rural Lands) 2008.

The relevant planning authority must provide a copy of any such study to the Director-General prior to undertaking community consultation in satisfaction of section 57 of the Act.

(7) Where provisions referred to under paragraph (5) of this direction have not been introduced and the relevant planning authority is preparing a planning proposal that proposes an intensification of land uses on land identified as having a probability of acid sulfate soils on the Acid Sulfate Soils Planning Maps, the planning proposal must contain provisions consistent with paragraph (5).

   (a) is within a mine subsidence district, or
   (b) has been identified as unstable in a study, strategy or other assessment undertaken:
      (i) by or on behalf of the relevant planning authority, or
      (ii) by or on behalf of a public authority and provided to the relevant planning authority.

What a relevant planning authority must do if this direction applies
(12) When preparing a planning proposal that would permit development on land that is within a Mine Subsidence District a relevant planning authority must:
   (a) consult the Mine Subsidence Board to ascertain:
      (i) if the Mine Subsidence Board has any objection to the draft Local Environmental Plan, and the reason for such an objection, and
      (ii) the scale, density and type of development that is appropriate for the potential level of subsidence, and
   (b) incorporate provisions into the draft Local Environmental Plan that are consistent with the recommended scale, density and type of development recommended under (4)(a)(ii), and
   (c) include a copy of any information received from the Mine Subsidence Board with the statement to the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General) prior to undertaking community consultation in satisfaction of section 57 of the Act.

   (c) in accordance with the relevant Regional Strategy or Sub-Regional Strategy prepared by the Department of Planning which gives consideration to the objective of this direction, or
   (d) of minor significance.

Note: With regard to development applications, section 15 of the Mine Subsidence Compensation Act 1961 requires approval from the Mine Subsidence Board to alter or erect improvements within a mine subsidence district or to subdivide land therein.

Section 91 of the Environmental Planning and Assessment Act 1979 (the EP&A Act) provides that approval under section 15 of the Mine Subsidence Compensation Act 1961 is integrated development. Section 91A of
the EP&A Act provides that the consent authority must obtain from the relevant approval body (Mine Subsidence Board) the general terms of any approval proposed to be granted by the approval body in relation to the development. A consent granted by the consent authority must be consistent with the general terms of any approval proposed to be granted by the approval body.

5.3 Direction 5.3 – issued 1 July 2009

5.4 Commercial and Retail Development along the Pacific Highway, North Coast

Objectives

(1) The objectives for managing commercial and retail development along the Pacific Highway are:

(a) to protect the Pacific Highway’s function, that is to operate as the North Coast’s primary inter- and intra-regional road traffic route;
(b) to prevent inappropriate development fronting the highway;
(c) to protect public expenditure invested in the Pacific Highway;
(d) to protect and improve highway safety and highway efficiency;
(e) to provide for the food, vehicle service and rest needs of travellers on the highway; and
(f) to reinforce the role of retail and commercial development in town centres, where they can best serve the populations of the towns.

Where this Direction applies

(2) This Direction applies to those council areas on the North Coast that the Pacific Highway traverses, being those council areas between Port Stephens Shire Council and Tweed Shire Council, inclusive.

When this Direction applies

(3) This Direction applies when a relevant planning authority prepares a planning proposal for land in the vicinity of the existing and/or proposed alignment of the Pacific Highway.

What a relevant planning authority must do if this Direction applies

(4) A planning proposal that applies to land located on “within town” segments of the Pacific Highway must provide that:

(a) new commercial or retail development must be concentrated within distinct centres rather than spread along the highway;
(b) development with frontage to the Pacific Highway must consider impact the development has on the safety and efficiency of the highway; and
(c) for the purposes of this paragraph, “within town” means areas which, prior to the draft local environmental plan, have an urban zone (eg: “village”, “residential”, “tourist”, “commercial”, “industrial”, etc) and where the Pacific Highway speed limit is less than 80km/hour.

(5) A planning proposal that applies to land located on “out-of-town” segments of the Pacific Highway must provide that:

(a) new commercial or retail development must not be established near the Pacific Highway if this proximity would be inconsistent with the objectives of this Direction;
(b) development with frontage to the Pacific Highway must consider the impact the development has on the safety and efficiency of the highway; and
(c) for the purposes of this paragraph, “out-of-town” means areas which, prior to the draft local environmental plan, do not have an urban zone (eg: “village”, “residential”, “tourist”, “commercial”, “industrial”, etc) or are in areas where the Pacific Highway speed limit is 80km/hour or greater.

(6) Notwithstanding the requirements of paragraphs (4) and (5), the establishment of highway service centres may be permitted at the localities listed in Table 1, provided that Roads and Maritime Services is satisfied that the highway service centre(s) can be safely and efficiently integrated into the Highway interchange(s) at those localities. For the purposes of this paragraph, a highway service centre has the same meaning as is contained in the Standard Instrument (Local Environmental Plans) Order 2006.
